EDUCATION

Galgotias College of Engineering & Technology   **Greater Noida, India**
Computer Science and Engineering, B.Tech   *2019 - Present*
● 9.04 CGPA

Manava Bharati India International School   **New Delhi, India**
XII Grade   *2019*
● 90%

WORK EXPERIENCE

FUTURE READY TALENT VIRTUAL INTERNSHIP
● Acquired Data and AI, Azure and Security skills and attended Industry Sessions (Digitization and Automation in BFSI, Empowering Sustainability Initiatives and more) by industry experts from different verticals.
● Created a live project that aligns with the lifestyle industry. The project records and analyses dream entries using Web and Azure technologies.

PROJECTS

DAILY DREAM JOURNAL
● MERN stack based web app for journaling your dreams and extracting analytical data from the entries using Azure and IBM Watson text analytics services

PATH FINDER WASM
● Web app created with React to implement and visualize (three.js) path finding algorithms with the help of C++ compiled into Web Assembly

BOOK BLOOM
● An android app (made with Flutter) provides a platform to post adverts for selling or buying old and used books.

ETCH-A-SKETCH
● A multiplayer drawing and guessing game made with SOCKET.IO and served through an express server.

MEYMEY ANDROID APP
● Android app that fetches memes from an API which can be stored in favorites (using RoomDB) or can be directly shared with contacts
